

Mad Science After School Programs

Spark your child's learning imagination!!!

Watts-Up!?

Learn about electricity, its properties and its role in natural phenomena. Make indoor lightning while conducting hair-raising experiments with our electro-static generator...

Sonic Sounds

Discover sounds, sound waves and the way household items can be used to create amazing movie effects. Use our multi-effects processor to reveal talent you never thought you had...perhaps a Canadian Idol in the making!!!!!!!!!!!!!!!

Light

Find out the fantastic properties of light and color. See rainbows in a new "light". Work with UV light and examine how our eyes see color and white light when motion is involved. Build your own Technicolor Blender!

Harnessing Heat

Witness a mini paper rocket launch while learning the properties of heat. Change the states of matter and work with thermometers. Have an ice cube melting race!

Optical Illusions

Build your own periscope while learning about optics, reflection and sight. Watch celebrity images change before your very eyes! Seeing is not always believing...

Magnetic Magic

Investigate the powers and daily uses of magnets. Work with electro-magnetic fields. Build your very own magnet tower to take home!

Dates: Jan 28, Feb 4, Feb 11,
Feb 18, Feb 25, Mar 11

Please return the attached form and fee to your school. *Keep the top part of this form for your information.*
