

This week, students should review many of the sight words that we've studied this year.

One way to do that is to practice reading the words on the sheet that they've completed in their duo-tang folders or practice reading the books on Starfall.com.

Also, students can play the matching game on Starfall. It has 3 different levels, and although there may be words that the students don't know, the game will read the words aloud when a match is made. It's beside #8 on the Starfall page, and is called "Sight Words".

This week we are learning the words "not", "see" and "are".

Students should practice printing these words by rainbow writing. Make a list of words that rhyme with "not".

Rainbow Write: Print the new word using one color (blue). Then, print the word again, on top, using a different color. Repeat using 2 more different colors. Now your word looks like a rainbow! (Have your child read the word to you each time they print it) Look at my words and rhyming words below:

see

are

not

cot

dot

hot

pot
