

Kindergarten Writing:

Make a book!

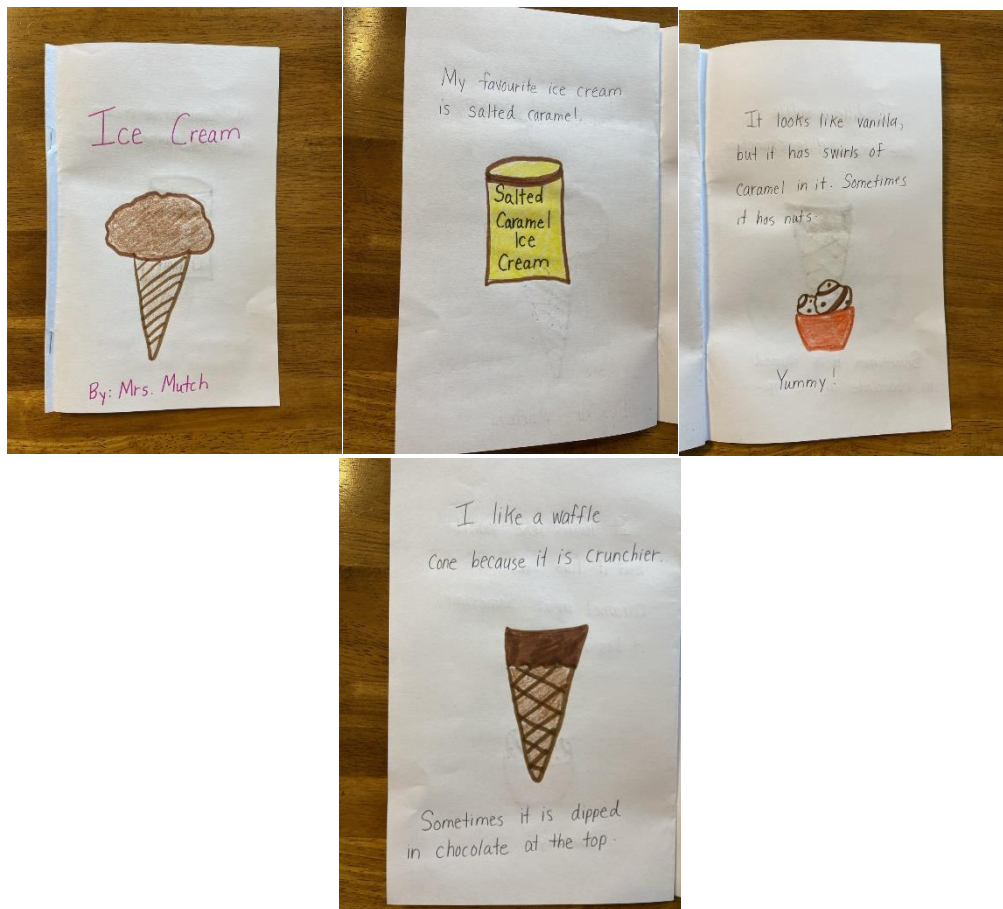

Cut or fold 1-2 pieces of paper in half, and staple together. (I used 2 pieces, and when I folded and stapled it, it turned into an 8 page book)

Write and illustrate your own story! I'd love to see it!

I'm starting my book this week, and I'll work on it every day. Next week it will be finished - all of my words and pictures will be completed.

Students have been very creative when we've tried this in the classroom. They have so many great ideas! My book is about ice cream, but I encourage students to write about anything that they would like to!

This is what I have so far in my book:

*You can use the alphabet chart to help with letter formation and letter sounds.
