

NSEE MASK CARE

Dear NSEE Parents,

Students are asked to bring two masks to school:

- one to wear to get on the bus and in common areas
- one can be stored in a ziplock bag in their backpack to be used as a backup

Other Info:

- Please send a plastic container (with a lid) to school each day to store their mask while they are in gym class, the cafeteria and outside.
- Please label your container with your child's name.
- The container should have a lid on it that your child can open and close themselves.
